

Advancing Health Care with Mobile Apps

Monday, November 6, 2017

12:30 PM to 12:50 PM

Innovation Theatre, Intelligent Health Pavilion, Exhibit Hall

Duane Bender, Professor at Mohawk College and Director of mHealth and eHealth Development and Innovation Centre (MEDIC) will be providing an introduction and welcome to the App Alley Pavilion. Duane will highlight some of the ongoing applied research and cutting edge technology at MEDIC that is advancing in Canada and worldwide. Specifically, with a booming field in cloud technology, Duane believes that the use of mobile applications will advance health care while streamlining scalability, workflows and processes. Join Duane Bender to delve into the world of mobile and cloud development.

Duane Bender

Professor of Software Engineering Technology

Director, MEDIC Applied Research Program
